

A FLORIDA PILOT PROPOSAL · SEPTEMBER 2026

THE ELLIMAN WAY TO AI

A Florida pilot that teaches agents to use AI well in the tools they already use, to Elliman's standards, and shows them when Elli is the better tool.

BY EDMUND BOGEN

PREPARED FOR

Jay Phillip Parker

CEO of Brokerage, Florida Region

Douglas Elliman Real Estate

PREPARED BY

Edmund Bogen

Broker Associate, Douglas Elliman Real Estate

edmund@bogenhomes.com

THE DECISION

Jay, Elliman is investing in AI with Elli and Elius. The harder part is getting agents to use AI well, and consistently. I'm proposing a small Florida pilot to test a practical way to do that before any larger commitment.

Edmund Bogen

THE QUESTION

In Microsoft and LinkedIn's 2024 survey of 31,000 knowledge workers, 78% of AI users brought their own AI tools to work, and only 39% had received AI training from their company. That survey did not measure Elliman agents. It points to a question worth testing in Florida: how our agents use AI today, and how consistently that use reflects Elliman's standards for brand, client information and Fair Housing.

THE PILOT

A hands-on program for agents in selected Florida offices and on Zoom, with a preview of the book's core material. Agents learn in the AI they already use, apply Elliman's standards, and see when Elli is the right tool.

WHAT WE LEARN

Whether agents attend, finish the work, keep using it, and move tasks into Elli, measured against a baseline we agree on before the first session.

AFTER THE PILOT

A short written report and a decision: expand, adjust or stop. Expansion could include the book, *The Elliman Way to AI*, and a wider Florida rollout.

REQUESTED NOW

A 30-minute working meeting in October to agree on pilot scope, offices, dates and decision owners.

No book order, and no approval to publish an Elliman-branded book, is requested now. *The Elliman Way to AI* is a working title; publication, commercial use of the Elliman name and use of any logo would require Elliman's prior written approval.

WHY START WITH FAMILIAR TOOLS

People tend to keep using the AI they know. The opportunity is to shape how agents use it, and to show them when Elliman's own tools do the job better.

78%

of AI users bring their own AI tools to work.

MICROSOFT & LINKEDIN · 2024 · 31,000 PEOPLE, 31 COUNTRIES

39%

of people who use AI at work have received AI training from their company.

MICROSOFT & LINKEDIN · 2024

An example of the effort adoption takes

15,000

Compass made its new AI Assistant available to 83,000 agents in July 2026 and backed it with a live demo day, executive office visits and local training. Compass reports that about 15,000 agents used it within weeks.

COMPASS, AS REPORTED BY FORTUNE · SEPTEMBER 23, 2026

"It takes a lot of work to get agents to actually adopt these tools."

Rory Golod, President of Growth, Compass · Fortune, September 2026

DOUGLAS ELLIMAN · OCTOBER 7, 2025 AND JULY 2026 ANNOUNCEMENTS

Elli, Elliman's AI assistant for agents, launched in Florida first; Elliman said a national rollout was planned for 2026. Its announced capabilities include natural-language MLS searches, branded reports, and help with property descriptions, pitches and pricing-strategy language. **Elius**, announced in July 2026, is a new real estate intelligence company whose agent tools Elliman describes as expected. It is part of Elliman's longer-term strategy, not part of this pilot.

These are signals from other settings, not proof this program will work. The pilot is how we find out.

How the pilot is meant to work

1

Train agents in AI tools they already use

>

2

Agents finish useful work in the session

>

3

Consistent brand and client-data practices

>

4

Agents learn when to use Elli for available workflows

>

5

Elliman evaluates adoption and value

Intended outcomes to test, not guaranteed results.

PILOT DESIGN

AUDIENCE	Agents in selected Florida offices, plus a Zoom group. Offices and group size to agree.
DELIVERY	Hands-on sessions in person and on Zoom. Agents bring a laptop or phone and work on real tasks.
MATERIALS	A draft preview of the book's core chapters and prompt library.
SCHEDULE	Dates, session count and cadence to agree with Elliman.

Proposed curriculum

#	SESSION	WHAT AGENTS PRODUCE
1	AI Foundations, the Elliman Way What AI does well, where it fails, and Elliman's rules for client information and Fair Housing.	A starter set of prompts for their own daily tasks.
2	Win the Listing Preparing for a listing appointment with AI, verified against the MLS.	A listing appointment brief (see the sample page).
3	Never Lose a Lead Follow-up and client email in the Elliman voice.	A follow-up workflow for their database.
4	Build a Reusable Assistant Saved instructions that make AI work the same way every time, and where Elli fits.	A reusable assistant or instruction set.

All exercises follow Elliman's technology and compliance policies.

Edmund provides

- Curriculum, preview material and delivery
- Baseline and follow-up surveys
- The pilot report

Elliman provides

- Participating offices and a sponsor
- Agent invitations and rooms
- Confirmation of AI, data and Fair Housing policies
- Elli usage data, where suitable
- A named decision owner

SAMPLE PAGE (DRAFT)

A draft of the pattern each chapter and session will follow. The example property is fictional.

DRAFT SAMPLE · LISTINGS

THE ELLIMAN WAY TO AI

THE LISTING APPOINTMENT BRIEF

Prepare for a listing appointment in less time, with every number checked.

WORKS IN CHATGPT, CLAUDE, GEMINI OR GROK

Act as my listing presentation coach. I'm preparing for a listing appointment. The property is a four-bedroom, three-bath single-family pool home of about 2,800 square feet, built in 1998, in a gated community in Boca Raton, with an updated kitchen and a lake view. Below are recent comparable sales from the MLS, with addresses removed: [PASTE: beds, baths, square feet, sale price, sale date, key features].

Give me:

1. Three strengths to emphasize, based only on the home's features and these comps.
2. Two pricing questions the seller is likely to ask, and a plain-language way to walk through the comps.
3. A 60-second opening for the appointment.

Describe the property and its features only, never the people who live nearby or who should buy it. If the comps don't support a point, say so.

THE ELLIMAN STANDARD

Leave out names, contact details, finances and anything from a signed agreement. Share only MLS data you are permitted to use, with addresses removed.

VERIFY BEFORE YOU USE

AI can be wrong. Check every comp, number and claim against the MLS and public records. The pricing opinion is yours, not the AI's.

FAIR HOUSING

Describe the home, not people. Avoid phrases such as "perfect for families," "safe neighborhood" or "ideal for young professionals."

WHERE ELLI FITS

Where Elli is available to you, use it for the Elliman-branded report you share with the seller.

MEASURING THE PILOT

We record a baseline before the first session and report against it at the end. Success criteria are agreed with Elliman before the pilot starts; none are assumed here.

MEASURE	HOW IT'S CAPTURED	SOURCE
Reach	Invitations sent and registrations	Elliman invite lists, registration form
Attendance	By session, in person and on Zoom	Sign-in sheets, Zoom reports
Completion	Exercises finished: prompts, brief, workflow, assistant	Session check-in
Agent feedback	Usefulness and confidence, before and after	Short surveys
Repeat use	Still using the workflows about 30 days later	Follow-up survey
Elli use	Baseline and follow-up activity, if Elliman is able and willing to share suitable data	Elliman data

IF THE PILOT WORKS

The pilot ends with a short written report and a decision meeting: expand, adjust or stop. If Elliman chooses to expand, Phase 2 could include:

- **The book**, *The Elliman Way to AI*, as the course material for every participating agent.
- **A wider Florida rollout** of the program to more offices.
- **An annual option** to add copies, offices or regions beyond Florida, at Elliman's decision.

PHASE 2 PROPOSAL, FOR DISCUSSION

Conditional on pilot results, manuscript and brand approval, and final terms.

THE BOOK	<i>The Elliman Way to AI</i> (working title), by Edmund Bogen. Not yet written. Proposed target: publication on Amazon in early 2027, at an anticipated \$19.95 retail price.
PROPOSED ORDER	Proposed: 1,000 copies for \$20,000, covering the books and the education program for those agents.
PROGRAM TERM	One four-session cycle for each participating group. Any ongoing schedule, such as recurring monthly cycles, and its length to agree.

Brand approval. *The Elliman Way to AI* is a working title. Publication, commercial use of the Elliman name, any logo and a branded cover all require Elliman's prior written approval. Printed and digital copies can't be recalled once distributed, so manuscript review, revisions, distribution and withdrawal are settled with Elliman's legal and brand teams before publication.

Terms to agree

ITEM	TO SETTLE
Pilot fee	Whether the pilot is paid, and how
Books	Print, shipping and delivery to offices
In-person sessions	Travel and room arrangements
Recordings	Whether sessions are recorded, and who may use them
Updates	How the material stays current as AI tools change
Ownership	Rights to the book and prompt library, and Elliman's use of them

Disclosure. I operate a separate, paid AI mastermind open to agents at any brokerage. It is not part of this proposal or a condition of it. If Elliman is interested in optional advanced coaching later, that would be a separate conversation, subject to Elliman's approval.

WHY EDMUND BOGEN

- **A longtime Elliman agent**, now a broker associate with The Edmund Bogen Team in South Florida. I care about this brand and want it to lead on AI.
- **An active AI educator**. I host a regular AI mastermind for real estate professionals on Zoom. Recordings of past sessions are at bogen.ai/video-archive.
- **Author of** *Prompt to Close: The AI Playbook for Real Estate Professionals* (bogen.ai/book).

NEXT STEP

A 30-minute working meeting in October to agree on the pilot scope and decision owners.
