

Your Roadmap Sprint, on One Page

Everything the \$7,500 Sprint delivers over the next 30–45 days — one system already live, one going live, and your complete build plan with fixed pricing.

✓ LIVE TODAY — BEFORE YOU'VE PAID A DOLLAR

1 • ListingStory

Your branded seller-intake app. A seller fills out one elegant form; the moment they submit, the AI drafts the Property Story — MLS remarks plus an Instagram caption, in your voice, with Fair Housing guardrails. You approve every word. Every submission feeds your dashboard and the database everything else is built on.

bogen.ai/c/mccormick — fill it out on your phone as one of your sellers would. Ninety seconds.

SHIPS INSIDE YOUR SPRINT

2 • Follow-Up Engine — Version 1

The system you asked for: *"something that proactively tells me who to follow up with and when."* Here is exactly what Version 1 looks like:

- **Every morning, a short digest lands in your inbox:** the five people you should reach out to today, from your existing contacts.
- **Each name comes with the why** — "closed with you in 2023, no touch in four months" — ranked by last contact and deal stage.
- **Each name comes with a drafted text or email in your voice.** You approve, edit, or skip. Nothing ever sends without you.

Version 1 runs on a secure import of your current contact list. Live CRM sync (Monday.com) is part of the Foundation Build that follows.

PHASE ONE — STARTS AT KICKOFF

3 • The Deep Dive Into Your Business

We audit everything you run — Monday.com, Mailerlite, your MLS / Zenlist data, your phone line, and your four social platforms — and map where every lead, listing, and follow-up actually lives. We also define the service levels and the legal / compliance guardrails (with your counsel) for any outreach work, so everything we build is safe to use on day one.

DELIVERED AT THE END OF THE SPRINT

4 • Your Roadmap — and the Next Build, Priced

Your full wish-list — call concierge, newsletter, lead intelligence, buyer-matching — sequenced into a 90-day build plan, each item ranked by ROI. It closes with two fixed numbers in writing: one price for your Foundation Build and one recommended monthly. You see the whole plan and both numbers **before** you commit to anything beyond the Sprint.

OUR STANDING COMMITMENT

5 • You Own What You Pay For

Everything we build for you becomes your property, outright, once paid in full — including ListingStory and your Follow-Up Engine. Your brand, your data, and your client relationships were always yours; now the tools are too. If we ever part ways, everything goes with you.

The Investment

\$7,500 fixed, over the 30–45 day Sprint — paid as the work lands, not up front:

\$3,000	At kickoff — the Sprint begins within days.
\$3,000	When your Follow-Up Engine v1 goes live — you're using it before you've paid the second installment.
\$1,500	On delivery of your roadmap — the plan and both fixed numbers, in writing.

Every dollar of the \$7,500 is credited in full toward your Foundation Build if you proceed. Major credit cards accepted.
