

A PROPOSAL · SEPTEMBER 2026

THE ELLIMAN WAY TO AI

A proposed book and presentation series that will teach every Elliman agent to use AI the Elliman way, starting with the tools they already use.

BY EDMUND BOGEN

PREPARED FOR

Jay Phillip Parker

CEO of Brokerage, Florida Region
Douglas Elliman

PREPARED BY

Edmund Bogen

The Edmund Bogen Team at Douglas Elliman Real Estate
edmund@bogenhomes.com

JAY,

Elliman is making a serious investment in AI with Elli and Elius. The hard part will not be building the tools. It will be getting agents to use them.

The research is consistent: people keep using the AI they already know. So instead of asking agents to switch, let's give them a manual for the AI they use every day and teach them to use it the Elliman way. Along the way, we bring them into Elli.

That is **The Elliman Way to AI**, a book I will write for Elliman agents and publish on Amazon. I'll bring it to every agent through a series of presentations, in our offices and on Zoom, with a copy for each agent.

It gives Florida a branded program no competitor has. I'd like your support to launch it here first.

Edmund Bogen

Broker Associate, The Edmund Bogen Team at Douglas Elliman Real Estate

78%

of people who use AI at work bring their own tools rather than the company's.

MICROSOFT · 2024

4

hands-on sessions, in person and on Zoom, with the book in every agent's hands.

THE SERIES

1

branded AI playbook for Elliman agents that no competitor has.

THE BOOK

AGENTS USE THE AI THEY KNOW

Companies buy tools. People keep using their own. Four numbers tell the story.

78%

of people who use AI at work bring their own tools rather than the company's.

MICROSOFT & LINKEDIN · 2024

28%

of employees know how to use their company's AI tools.

WALKME (SAP) · 2025

13%

of salespeople use their CRM's full capabilities, though 80% of companies have one.

ACCENTURE · 2016

~18%

of Compass agents tried its new AI assistant in the first weeks, after CEO roadshows.

FORTUNE · 2026

"It takes a lot of work to get agents to actually adopt these tools."

Rory Golod, President of Growth, Compass · Fortune, September 2026

What works: Morgan Stanley's AI assistant reached about 98% of advisor teams because it met them inside tools they already used. The same idea applies here. Meet agents where they already work, then lead them to Elli.

START WHERE AGENTS ARE

Don't ask agents to switch. Teach them the Elliman way in the AI they already open every day, then bring them into Elli.

TODAY

Their own AI

ChatGPT, Claude, Gemini or Grok, on their phone, used their own way.

THE BOOK + SERIES

The Elliman Way to AI

One method, one prompt library, one standard for brand, compliance and client data.

THE PAYOFF

Elli and Elius

Each chapter shows where Elliman's own tools do the job better.

Elli launched in Florida first, in October 2025. Florida is the natural place to prove this works before the national rollout.

WHAT THE BOOK WILL COVER

1. **What changed in AI this year**, in plain language, and what it means for a listing, a buyer and a closing.
2. **AI skills and commands**: reusable instructions that make any AI work the same way every time.
3. **A prompt library** for an agent's daily work: CMAs, listing presentations, follow-up, market updates, client email and contract review.
4. **The Elliman standard**: brand voice, Fair Housing guardrails, and what client data never goes into a public AI tool.
5. **The bridge to Elli and Elius**: when to move a task from a general AI into Elliman's platform, step by step.

Every prompt will be written by an Elliman agent and tested on real listings and real clients before it goes in the book. A draft sample page follows.

A SAMPLE PAGE (DRAFT)

The book is not written yet. This draft shows the pattern every chapter will follow: a prompt that works in any AI, the Elliman standard, and the step into Elli.

DRAFT SAMPLE · LISTINGS

THE ELLIMAN WAY TO AI

THE LISTING APPOINTMENT BRIEF

Walk into every listing appointment prepared in ten minutes, not two hours.

COPY THIS INTO CHATGPT, CLAUDE, GEMINI OR GROK

You are my listing presentation strategist. I am a Douglas Elliman agent meeting a seller at [ADDRESS] in [NEIGHBORHOOD] on [DATE]. The home has [BEDS / BATHS / SQUARE FEET / KEY FEATURES]. Here are recent comparable sales: [PASTE 3–5 COMPS]. Give me:

1. Three reasons this home will sell, based on its features and the comps.
2. The two objections this seller is most likely to raise, and how I answer each.
3. A plain-language pricing conversation I can have at the kitchen table.
4. A 90-second opening I can say out loud.

Keep the tone confident, warm and professional. Describe the neighborhood by its homes, amenities and location only.

THE ELLIMAN STANDARD

Never paste a seller's financial details, ID numbers or contract into a public AI. Describe places, never the people who live there.

TAKE IT INTO ELLI

Ask Elli for a branded market report and pricing strategy for the address. Bring both to the appointment.

TRY IT NOW

Run it before your next appointment. Aim to finish in under ten minutes.

THE PRESENTATION SERIES

Four 60-minute sessions that put the book to work. Agents bring their phones, run the prompts live and leave with results.

#	SESSION	AGENTS LEAVE WITH
1	The Elliman Way to AI What changed in AI this year and the five prompts every agent needs.	Five prompts working on their own phone.
2	Win the Listing CMAs, pricing and listing presentations, then into Elli for the branded report.	A listing brief for their next appointment.
3	Never Lose a Lead Follow-up, client email, market updates and social content in the Elliman voice.	A 30-day follow-up plan for their database.
4	Build Your AI Assistant Skills and commands that make AI work the same way every time, plus Elius.	Their own reusable AI assistant, set up.

IN PERSON

Office sessions

Hands-on in Elliman's Florida offices, office by office.

ON ZOOM

Live for every agent

One live session per topic, open to all Florida agents.

ON DEMAND

Recorded

Each session recorded for agents who miss it and for new hires.

The book will be the course material. Every agent in the room will have a copy, so every session starts on the same page.

THE OFFER

- **The book:** I write it with Elliman's input, and it will retail for \$19.95 on Amazon. Elliman orders one copy for each agent.
- **The presentation series** comes with the book order: four sessions, in person and on Zoom, recorded.
- **The Elliman name** goes on the title and cover with Elliman's approval of the manuscript. No logo without separate written approval, and the name comes off if Elliman ever asks.

What Elliman Gets

- A branded AI program that sets Elliman apart from Compass and every other firm.
- A path into Elli and Elius that agents will actually follow.
- Written standards for client data and Fair Housing in AI.
- A recruiting and retention piece.

What I Get

Visibility with Elliman agents across Florida. Agents who want to go further than the book and series can work with me as a coach. That is what makes this worth building.

Why Me

An Elliman broker associate in South Florida and author of *Prompt to Close: The AI Playbook for Real Estate Professionals* (Amazon). I teach AI to agents every week through a mastermind and a Facebook group of nearly 20,000 real estate professionals, and I founded the AI consulting firm Bogen.ai.

Next Steps

1. A 30-minute conversation in October.
2. Agree on the use of the Elliman name, with Elliman legal.
3. I write the book; Elliman reviews and approves the manuscript before it is published.
4. Publish on Amazon, launch Session 1 in Florida, then offer the program nationally.
